This is a listing of all health funds that register ANPA members as providers. The Australian Regional Health Group covers all the funds shaded grey on this list and you are not required to initiate provider registration with these funds. The funds that are in **** BOLD**** type are provided with a periodic membership update listing from ANPA's office. Although the office sends an update to these funds, members are advised to contact them direct to ensure that no additional paperwork is required. All other funds will require that the member initiate provider registration. If you encounter difficulties, please contact ANPA's office for assistance and advice.

***Please note:**

If your clinic address and details change some health insurance companies need you to contact them directly (not the ANPA office) to make these changes. **Health insurance companies marked with an * need direct contact.** Thank you.
